

DEVELOP NATIONAL RECYCLING STANDARDS FOR PLASTICS

America's Plastic Makers® are working to eliminate plastic waste. For that to happen, we suggest Congress empower the EPA and the DOE to develop a set of national plastics recycling standards. Through that policy, we can help achieve the EPA's goal to increase the recycling rate to 50% by 2030.

TO ACCELERATE A CIRCULAR ECONOMY FOR PLASTICS

82%

of voters support national plastics recycling standards for a nationwide recycling framework.

RESEARCH CONDUCTED BY BCW FOR AMERICA'S PLASTIC MAKERS

NATIONAL PLASTICS RECYCLING STANDARDS ADVISORY COMMITTEE

The Committee should work to develop national recycling standards for plastics that seeks to:

- IMPROVE COLLECTION AND ACCESS
- IMPROVE OUTREACH AND EDUCATION
- IMPROVE DATA AND REPORTING
- REDUCE RECYCLING CONTAMINATION
